

Aerosol Maintenance Spray

Technical Data Sheet | SKU: LBP-AEROSOL

PRODUCT DESCRIPTION

Aerosol maintenance sprays are used by maintenance teams for fast field lubrication, loosening and protection tasks.

PRODUCT INFORMATION

SKU: LBP-AEROSOL

Brand: Lubpart

Category: Technical Supplies

Origin: Imported

Product Type: Aerosol

Use: Field maintenance applications

Application Area: Maintenance and Service

Sectors: Iron and Steel, Paper, Textile, Automotive and Sub-Industry, Chemical, Mining,

Other Industrial Production Areas

APPLICATION AREAS

- Field maintenance applications
- Maintenance and Service
- Maintenance and technical service applications
- Production support operations
- Process and surface preparation needs

KEY FEATURES

- Fast application
- Maintenance convenience
- Protection support
- Supports operational continuity and process control

PERFORMANCE LEVEL / STANDARDS

- GHS / SDS

TECHNICAL VALUES

The technical values below must be verified against the current official brand technical data sheet.

Property | Test Method | Unit | Typical Value

Appearance | Brand TDS | - | To be taken from official TDS

Density @20C | ASTM D4052 | g/cm³ | To be taken from official TDS

pH / Active Matter | Brand TDS | - | To be taken from official TDS

Application Temperature | Brand TDS | C | To be taken from official TDS

Dilution / Use Ratio | Brand TDS | % | To be taken from official TDS

APPLICATION NOTE

Apply the product according to the relevant plant procedure after checking process conditions, material compatibility, occupational safety instructions and manufacturer documents.

STORAGE

Keep the package closed; store in a dry and ventilated area away from direct sunlight, freezing, excessive heat and ignition sources. Protect the product from water, dust and

foreign matter contamination.

SAFETY

Refer to the current Safety Data Sheet for safe use, handling, storage and disposal. Apply personal protective equipment and plant occupational safety instructions.
