

Norton Cutting and Grinding Products

Technical Data Sheet | SKU: NORTON-CG-RANGE

PRODUCT DESCRIPTION

Norton cutting and grinding products are industrial abrasive products used for cutting, weld cleaning, deburring and surface correction in metal fabrication, maintenance and field applications.

PRODUCT INFORMATION

SKU: NORTON-CG-RANGE

Brand: Norton

Category: Technical Supplies

Origin: Imported

Product Type: Cutting and Grinding Product

Use: Metal cutting, grinding, deburring, surface preparation

Application Area: Metalworking Process, Maintenance and Service, General Production Lines

Sectors: Iron and Steel, Automotive and Sub-Industry, Mining, Other Industrial Production Areas

APPLICATION AREAS

- Metal cutting, grinding, deburring, surface preparation
- Metalworking Process
- Maintenance and Service
- General Production Lines
- Maintenance and technical service applications
- Production support operations
- Process and surface preparation needs

KEY FEATURES

- Suitable for maintenance and fabrication operations
- Supports cutting and grinding processes
- Positioned for industrial field use
- Supports operational continuity and process control

PERFORMANCE LEVEL / STANDARDS

- ISO 6743-7

TECHNICAL VALUES

The technical values below must be verified against the current official brand technical data sheet.

Property | Test Method | Unit | Typical Value

Appearance | Brand TDS | - | To be taken from official TDS

Density @20C | ASTM D4052 | g/cm³ | To be taken from official TDS

pH / Active Matter | Brand TDS | - | To be taken from official TDS

Application Temperature | Brand TDS | C | To be taken from official TDS

Dilution / Use Ratio | Brand TDS | % | To be taken from official TDS

APPLICATION NOTE

Apply the product according to the relevant plant procedure after checking process conditions, material compatibility, occupational safety instructions and manufacturer documents.

STORAGE

Keep the package closed; store in a dry and ventilated area away from direct sunlight, freezing, excessive heat and ignition sources. Protect the product from water, dust and foreign matter contamination.

SAFETY

Refer to the current Safety Data Sheet for safe use, handling, storage and disposal. Apply personal protective equipment and plant occupational safety instructions.
